Check the appropriate box to indicate the rule pursuant to which this form is being filed, and provide the period to which the information in this form applies:

- Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2015.

**Section 1 - Conflict Minerals Disclosure**

**Item 1.01 Conflict Minerals Disclosure and Report**

A copy of Logitech's Conflict Minerals Report filed for the reporting period January 1, 2015 to December 31, 2015 is provided as Exhibit 1.01 hereto and is publicly available on Logitech's website at <http://ir.logitech.com/financial-information/sec-filings/>

Logitech has adopted a Conflict Minerals Policy which can be found at <http://www.logitech.com/assets/64424/logitech-conflict-minerals-policy-april-2016.pdf>

**Item 1.02 Exhibit**

In accord with Rule 13p-1 under the Securities Exchange Act of 1934 ("Rule 13p-1"), Logitech has filed this Specialized Disclosure Form (Form SD) and the associated Conflict Minerals Report as Exhibit 1.01 hereto.

**Section 2 - Exhibits**

**Item 2.01 Exhibits**

Exhibit 1.01 - Conflict Minerals Report as required by Items 1.01 and 1.02 of this Form.

---

**LOGITECH INTERNATIONAL S.A.**  
**CONFLICT MINERALS REPORT**  
**FOR THE REPORTING PERIOD FROM JANUARY 1 TO DECEMBER 31, 2015**

## **SECTION ONE: INTRODUCTION**

This report for the year ended December 31, 2015 is presented to comply with Rule 13p-1 under the Securities Exchange Act of 1934 (the “Rule”). In this Conflict Minerals Report (“CMR”), references to “Logitech”, the “Company”, “we”, “us” or “our” refer to Logitech International S.A. and its majority-owned subsidiaries and variable interest entities that are required to be consolidated.

Logitech manufactures or contracts to manufacture products that may contain gold, tantalum, tin and tungsten (“3TG”) that are necessary to the functionality or production of the products. Accordingly, the Company has undertaken the measures described in this CMR to trace the origin of these minerals and whether they may have been sourced from the Democratic Republic of Congo (“DRC”) or any of its adjoining countries (collectively, the “Covered Countries”).

Statements in this CMR are based on our due diligence activities performed to date in good faith and are based on information available at the time of this filing, unless otherwise indicated. Factors that could affect the accuracy of these statements include, but are not limited to, incomplete supplier data or available smelter and refiner (collectively referred to as “Smelters” in this CMR) data, errors or omissions by suppliers or smelters, ongoing certification of smelters, continued guidance or amendments to the Rule, and other issues. Additionally, this CMR may contain forward-looking statements that reflect what we strive to achieve in the future as we continue to improve our responsible sourcing program. These forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties.

### **1. Company Overview**

Logitech International S.A., together with its consolidated subsidiaries, (“Logitech” or the “Company”) is a world leader in designing products that have an everyday place in people’s lives, connecting them to the digital experiences they care about. Over 30 years ago Logitech started connecting people through computers and now it’s designing products that bring people together through music, gaming, video and computing.

Logitech was founded in Switzerland in 1981, and Logitech International S.A. has been the parent holding company of Logitech since 1988. Logitech International S.A. is a Swiss holding company with its registered office in Apples, Switzerland, which conducts its business through subsidiaries in Americas (including North and South America), EMEA (Europe, Middle East, Africa) and Asia Pacific (including, among other countries, China, Taiwan, Japan and Australia). Shares of Logitech International S.A. are listed on both the SIX Swiss Exchange, under the trading symbol LOGN, and the Nasdaq Global Select Market, under the trading symbol LOGI.

Logitech designs, manufactures and markets products that allow people to connect through music, gaming video, computing and other digital platforms. Our products participate in five large markets: Music, Gaming, Video Collaboration, Home Control and Creativity and Productivity. In December 2015, Logitech completed the divestiture of the majority equity stake of our Lifesize business, and, as such, LifeSize products considered in scope for this CMR are those manufactured for sale from January 1, 2015 to December 28, 2015, the date on which the sale transaction closed .

## **SECTION TWO: LOGITECH PRODUCTS**

Conflict minerals in the form of the 3TGs were necessary to the functionality or production of the following categories of products that we manufactured or contracted to manufacture during 2015.

- **Computer products** . Mice, keyboards, presenters, trackballs, trackpads and other accessories.
  - **Tablet & smartphone products** . Tablet folio protective cases, tablet keyboards, and smartphone accessories.
  - **Gaming products** . Gaming mice, keyboards, headsets and other controllers (joystick, gamepad, steering wheel).
-

- **Audio products** . Speakers, headsets, in-ear headphones and other accessories.
- **Video products** . Conference cameras, webcams and other accessories
- **Home Control Products**. Home entertainment and connected smart home device controllers
- **LifeSize** . Video conferencing systems.

These products are more fully described in our Annual Report on Form 10-K, which can be accessed on our Web site or on the Securities and Exchange Commission’s Web site at <http://www.sec.gov>, and the reports we file that are published by the SIX Swiss Exchange may be accessed at: <http://ir.logitech.com/financial-information/sec-filings/>

### SECTION THREE: REASONABLE COUNTRY OF ORIGIN INQUIRY

For the reporting period from January 1 to December 31, 2015, Logitech conducted a reasonable country of origin inquiry (“RCOI”) to determine whether any of the conflict minerals necessary to the functionality or production of the products (“Necessary Conflict Minerals”) that we manufactured or contracted to manufacture originated in the Covered Countries. To make this determination, we engaged with our direct suppliers of materials, parts, components or products potentially containing 3TG (“In-Scope Suppliers”) to identify the Smelters of the Necessary Conflict Minerals.

Our RCOI included the following steps:

- From a total of 496 suppliers, we identified 424 In-Scope Suppliers, out of which 273 In-Scope Suppliers relate to Logitech and 151 In-Scope Suppliers relate to LifeSize;
- We conducted a survey of our In-Scope Suppliers using the CFSI Conflict Minerals Reporting Template Revision 4.0 or later version (“CMRT” or “Template”), which included questions about the location or mine of origin, and obligated those suppliers to make similar efforts to survey their supply chain using CMRT and report the facilities and location or mine of origin for necessary conflict minerals. Given our position in the supply chain and the fact that Logitech does not directly purchase raw materials, as we are several tiers away from the Smelters and country of origin of the 3TG used in our products, we relied on our first-tier suppliers to provide information about the sources of the 3TG used in our products;
- We also followed up with In-Scope Suppliers to clarify or update their responses;
- We received responses from suppliers estimated to represent 97.88% of our In-Scope Suppliers. Logitech was able to receive a 100% supplier response rate and LifeSize received an estimated 94.04% supplier response rate;
- Each CMRT response was reviewed according to criteria including but not limited to untimely or incomplete responses, or inconsistencies within the data reported in CMRT. We reviewed the responses against the criteria designed to evaluate the adequacy of responses with a goal to determine whether or not potential Smelters may have sourced from the Covered Countries.

**Table 1. RCOI result of Logitech**

	<b>Logitech + LifeSize</b>	<b>Logitech</b>	<b>LifeSize</b>
<b>In-Scope Suppliers #</b>	424	273	151
<b>Response Ratio</b>	97.88%	100%	94.04%

Suppliers responses indicated that some of the Smelters used by certain Suppliers in our supply chain may obtain 3TG from the Covered Countries. Supplier responses also indicated sourcing 3TG from outside the Covered Countries, from recycled or scrap sources, and from unknown origins. Accordingly, we conducted due diligence to determine the source of 3TG metals and have prepared this Conflict Minerals Report.

## SECTION FOUR: DUE DILIGENCE MEASURES

We conducted due diligence on the source and chain of custody of the conflict minerals that are necessary to the functionality or production of our products to ascertain whether these conflict minerals originated in the Covered Countries and financed or benefitted non-state armed groups in any of these countries.

### Design of Our Due Diligence Measures

Our conflict minerals due diligence measures have been designed to conform with the Organisation for Economic Co-operation and Development Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas, Second Edition (the “OECD Guidance”), as applicable for tin, tantalum, tungsten, gold and downstream companies (as the term is defined in the OECD Guidance), in all material respects. We designed our due diligence measures to:

1. establish strong Company management systems for conflict minerals supply chain due diligence;
2. identify and assess conflict minerals risks in our supply chain;
3. design and implement strategies to respond to conflict minerals risks identified;
4. contribute to independent third-party audits of the due diligence practices of conflict minerals smelters and refiners by participating in industry organizations; and
5. report on our conflict minerals supply chain due diligence activities.

### Due Diligence Measures Performed

Logitech’s due diligence measures were based on multi-industry initiatives with the smelters of conflict minerals who provide those conflict minerals to Logitech’s suppliers. As a purchaser, Logitech is many steps removed from the mining of the conflict minerals; Logitech does not purchase raw ore or unrefined conflict minerals, and does no purchasing in the Covered Countries. The smelters are consolidating points for raw ore and are in the best position in the total supply chain to know the origin of the ores. For downstream users like Logitech, it is not possible to determine the origin of conflict minerals without information and clarification from suppliers and smelters.

As a member in the Conflict Free Sourcing Initiative (the “CFSI”), we leveraged the due diligence conducted on smelters by the CFSI’s Conflict-Free Smelter Program (the “CFSP”). The CFSP uses independent private sector auditors to audit the source, including mines of origin, and chain of custody of the conflict minerals used by smelters that agree to participate in the CFSP. The smelters that are found to be CFSP compliant are those for which the independent auditor has verified that the smelter’s conflict minerals originated from conflict free mines in the Democratic Republic of the Congo or any of its adjoining countries.

Our due diligence measures included the following activities:

- 1) We utilised the already established internal team to implement Logitech’s Conflict Minerals Program again in 2015. The core team members are comprised from the following business units: Sustainability; Lifesize Compliance; Global Sourcing; Legal; Investor Relations and Finance;
  - 2) We maintained public availability of a Conflict Mineral Policy in 2015 at:  
<http://www.logitech.com/assets/51186/logitech-policy-on-conflict-minerals-jan-2014-signed.pdf>;
  - 3) We established requirements and continued to incorporate these requirements into our standard supplier contracts to define Logitech’s expectations of suppliers regarding sourcing of conflict minerals and reporting of information to Logitech;
-

- We compared the Smelters identified by relevant In-Scope Suppliers via the supply chain survey against the list of facilities that have received a “conflict-free” designation for tantalum, tin, tungsten and gold, such as the Conflict-Free Smelter List (“CFS List”) published by the CFSI, the London Bullion Market Association (the “LBMA”) and the Responsible Jewellery Council (the “RJC”).
- 4)
  - 5) We defined a risk management plan for the relevant In-Scope Suppliers that present a potential conflict minerals risk.
  - 6) We supported the CFSI Conflict-Free Smelter Program, and required relevant In-Scope Suppliers in Logitech supply chain to encourage the facilities in their supply chain to participate in the CFSI Conflict-Free Smelter Program.

## SECTION FIVE: DUE DILIGENCE RESULTS

Out of the 361 entities listed by our suppliers as potential smelters, 219 of these entities were identified as certified Conflict-Free using the CFSI Compliant Smelter and Refiner Lists, the LBMA Good Delivery List, and the RJC Chain-of-Custody Certification Program. Another 35 smelters were identified in audit process to become compliant. Accordingly, 70.4% of the Smelters are CFSI compliant or in process to become compliant. The remaining 107 processing facilities could not be determined to be CFSI compliant.

Table 2 below illustrates our progress with Smelters compared to calendar year 2014.

**Table 2: Progress in Smelters’ Status**

	2014		2015	
	Number	% of Total	Number	% of Total
<b>Compliant</b>	<b>161</b>	<b>38.1%</b>	<b>219</b>	<b>60.7%</b>
<b>In process</b>	<b>41</b>	<b>9.7%</b>	<b>35</b>	<b>9.7%</b>
<b>Not yet participating</b>	<b>221</b>	<b>52.2%</b>	<b>107</b>	<b>29.6%</b>
<b>Total</b>	<b>423</b>	<b>100%</b>	<b>361</b>	<b>100%</b>

Table 3 further illustrates our results for each metal by setting forth the number and percentage of Smelters’ facilities that were either Conflict-Free under 3rd party audit program or in the process of becoming compliant as of May 03, 2016.

**Table 3: 2015 Conflict Free or In Audit Process Smelters, by Metal**

<b>Metal</b>	<b>Smelters and refiners verified as conflict-free or in the audit process</b>
Tantalum	46 of 48 (95.8%)
Tin	72 of 113 (63.7%)
Tungsten	39 of 47 (83.0%)
Gold	97 of 153 (63.4%)

Logitech supports the refinement and expansion of the list of participating Smelters through its membership in the CFSI program.

A small minority of suppliers provided information at a product level or product category level. However all of these suppliers were unable to identify specifically the smelters whose 3TG went into parts supplied to Logitech.

The large majority of the responses received provided data at a company or divisional level or, as described above, were unable to specify the Smelters used for parts supplied to Logitech. We are unable, at this time, to verify that all 3TGs reported by our In-Scope Suppliers were contained in products or parts supplied to us or another Logitech-contracted supplier. We are also unable to verify that any of the 3TG Smelters that our In-Scope Suppliers identified were part of our raw materials supply chain. Nonetheless, we have made a reasonable good faith effort to collect and evaluate the information concerning 3TG Smelters based on information provided by our In-Scope Suppliers.

We have therefore elected not to present the Smelters' names in this report, with the exception of the Smelters that are certified Conflict-Free using the CFSI Compliant Smelter and Refiner List, the LBMA Good Delivery List, and the RJC Chain-of-Custody Certification Program. **Attachment A** to this Conflict Minerals Report sets forth the name of the said Smelters.

#### **Efforts to Determine the Conflict Minerals' Mine or Location of Origin**

Through our participation in CFSI, the OECD implementation programs, and requesting our suppliers to complete the Template, we have determined that seeking information about 3TG Smelters in our supply chain represents the most reasonable effort we can make to determine the mines or locations of origin of the 3TG in our supply chain, as outlined in Section Four above ("Due Diligence Measures").

#### **SECTION SIX: NEXT STEPS**

Logitech will undertake the following steps, during the next compliance period, with the intention of further mitigating the risk that its supply chain sourcing, utilizing necessary conflict minerals may benefit armed groups, including:

- Attempting to increase the response rate of suppliers and improve the content of the responses by contracting a third party specialist to engage with these suppliers on an individual basis to understand their challenges in compliance and support their transition.
  - Requesting relevant suppliers to request Smelters to participate in obtaining a conflict free designation from an industry program such as the CFSI Conflict Free Smelter program.
  - Attempting to validate suppliers responses using information collected via independent conflict free smelter validation programs such as the CFSI Conflict Free Smelter program.
  - Enhancing communication with suppliers using Smelters not yet participating to third party audit such as the CFSI Conflict Free Smelter program.
  - Future Non-Conformance: Discontinue doing business with any Logitech Suppliers whom are unable to meet our Conflict Minerals Policy.
-

## Attachment A

### List of Certified Conflict-Free Smelters

This List is based on our review of the information provided by the In-Scope Suppliers based on the CFSI Conflict Minerals Reporting Template, the CFSP compliant smelter list, the London Bullion Market Association (LBMA) Good Delivery List, the Responsible Jewelry Council (RJC) Chain-of-Custody Certification Program, as well as other sources as of May 03, 2016.
