FOLD-AND-GO HD VIDEO.

Logitech B525 HD Webcam

For on-the-go professionals, Logitech® B525 HD Webcam makes it easy to meet face-to-face, wherever you are. The convenient fold-and-go design lets you pack the camera and take it with you. Just attach it to your laptop and begin your meeting.

With its 720p HD video captured at 30 frames per second, the B525 HD Webcam delivers crystal clear video even in low-light conditions. The built-in autofocus also maintains sharpness as close as 10cm.

USB plug and play simplicity makes set up a snap. Plus, advanced business certifications and enhanced integration with Logitech Collaboration Program (LCP) members¹ ensure a seamless meeting experience with any video conferencing application.

FEATURE SPOTLIGHT

Works with most video conferencing applications

Users are free to use the desktop video conference program of their choice.

Premium HD quality with autofocus

720p HD up to 30 fps with autofocus – images stay razor sharp in high definition, even in close-ups (up to 10 cm from the camera lens).

True 2.0-megapixel sensor with RightLight™ 2 technology

Maintain high quality image calling even in offices or conference rooms with lower lighting.

High quality microphones

Built-in mic ensures sound is crystal clear.

Three-year limited hardware warranty

Logitech for Business supports the needs of businesses with extended warranty.

Design advantages for business

With the 360° swivel, easily position the camera at multiple angles whether for single party or multi-party calling. And if you don't want to be seen, swivel the camera away from you for privacy.

Fold-and-go for ultimate mobility

Integrated fold-and-go design let's you easily pack the camera and take it with you without needing a separate case – perfect for the busy professional on the go.

True plug and play

Just plug in Logitech B525 HD Webcam, choose your video application of choice and start your meeting.

Universal clip

Fits your LCD monitor or laptop wherever you work.
